

FOR AGRICULTURE / CLEANING

Product reference

HL3000PROE

Professional high pressure
cleaner with 510 l/h flow rate /
HL3000PROE

Brand

Bellota

EAN code

8414299085105

Use

For cleaning agricultural and industrial machinery, vehicles and large surfaces.

Bullet points

510 l/h of flow, 160 bar of pressure and 3 Kw of power.

3P brass pump with brass head, hardened steel pistons and induction motor allow intensive use and high performance.

Versatile: thanks to its compact design and its two supports, wheeled and fixed.

Description

Professional compact pressure cleaner with 510 l/h of flow, 160 bar of pressure and 3 Kw of power. Ideal for cleaning agricultural and industrial machinery, vehicles and large surfaces. Its 3P brass pump with brass head, hardened steel pistons and induction motor allow intensive use and high performance. Equipped with a total stop system to protect the motor from overheating, and water suction capacity. Includes a reinforced gun, a 600mm stainless steel lance with brass connections, 10m steel reinforced high pressure hose with hanger, 4 interchangeable nozzles of 0°, 15°, 25°, 40° and a turbo nozzle to treat the most ingrained dirt, as well as a foam sprayer with 1000ml soap tank. It offers maximum versatility to the user by having two supports: a wheeled trolley for convenient mobility and a fixed support that can even be fixed to the wall.

Characteristics and attributes

Attributes

Power (Kw): 3

Maximum pressure (bar | psi): 160 | 2320

Characteristics

Pump type: Brass pump 3P

High pressure hose diameter (mm): 16

Engine type: Induction motor

Nozzles included: 0°, 15°, 25°, 40° and turbo nozzle

Water filter

Detergent bottle: Yes, 1000 ml, adjustable flow rate

Transport wheels: Incluido

Water suction capacity: Incluido

Adjustable foam sprayer with soap tank: Incluido

Boquilla 3 en 1: No
